

Annex 1 - ESPD

[As of 02/05/2019, the contracting authorities prepare the European Single Procurement Document (ESPD) using the new electronic service Promitheus ESPDint (<https://espdint.eprocurement.gov.gr/>), which offers economic operators the possibility to electronically draft and manage the ESPD (see also, www.promitheus.gov.gr). The file, after duly completed, is electronically signed in the form of PDF file, and uploaded as part of Dossier A'. HRADF shall upload the relevant XML file for the convenience of economic operators in order to compile their relevant response through the eESPD service.]
